AromaStreamer® 650 Bluetooth

reimaronom® AromaStreamer® 650:

- comfortable operation via Bluetooth
- minute and day accurate real-time programming
- second-precise control of the scent intensity
- fast and easy change of scent cartridge
- scent cartridge: 150 ml

Would you like to enjoy noble scents in all facets,
pure and natural?

Then you should decide for the professional AromaStreamer® system, because the diffusion of scents requires a sophisticated system which ensures a uniform complexity of the scent. The compact AromaStreamer® 650 is such a scenting device and works on the principle of cold evaporation. The gentle and micro-fine misting of exclusive scent compositions guarantees a fast scenting for areas up to 100 m². Thanks to the built-in multifunction timer, the Aromastreamer® 650 can be easily accessed by an app via Bluetooth and quickly programmed to your desired working hours. Scenting intervals programmable to the second, guarantee a uniform and optimal scenting effect. Unpleasant odors will be removed quickly and effectively by an absorber in our scents.

For using your AromaStreamer® 650-please just download the free "REIMA"-App in your App Store or Google Play Store.
